CONTRACTING

BUILDING TODAY, BETTER TOMORROW

COMPANY OVERVIEW

Abdul Contracting Company is a premier Mechanical, Electrical, and Plumbing (MEP) and renewable energy contracting firm headquartered in Jeddah, Saudi Arabia. Operating under strong technical leadership, we deliver turn-key engineering, procurement, and construction (EPC) solutions tailored for complex commercial, industrial, residential, and infrastructure developments across the Kingdom.

Specializing in High-Efficiency Solar PV Integration, Low/Medium Voltage (LV/MV) Power Networks, Advanced HVAC Systems, and Civil Defense-Approved Fire Protection, Abdul Contracting Company plays a pivotal role in building sustainable infrastructure aligned with Saudi Vision 2030.

STRATEGIC FRAMEWORK

OUR VISION

To set the benchmark for technical excellence and sustainable innovation, transforming engineering blueprints into enduring legacies across Saudi Arabia.

OUR MISSION

To consistently exceed client expectations by delivering high-precision engineering, zero-compromise safety standards, and value-driven execution.

CORE VALUES

Guided by unwavering integrity and accountability, we take full ownership of our commitments and project deliverables. We drive innovation and quality by applying modern engineering standards to construct enduring infrastructure. Operating under a strict zero-compromise safety policy, we ensure full compliance on every job site while delivering energy-efficient, sustainable solutions aligned with Saudi Vision 2030.

- **Integrity and Accountability**
- **Innovation and Quality**
- **Sustainable Execution**
- **Safety and Operational Excellence**

OUR SERVICES

GENERAL CONSTRUCTION

We execute structural, architectural, and civil works for commercial, industrial, and residential projects from site preparation to final completion.

DESIGN & BUILD

We offer unified project delivery, integrating preliminary engineering concepts, detailed architecture, and construction management under a single point of responsibility.

PROJECT MANAGEMENT

We oversee budget control, resource allocation, site supervision, and schedule tracking to ensure seamless project execution and quality compliance.

RENOVATION & MAINTENANCE

We provide comprehensive facility upgrades, structural refurbishments, and preventative MEP maintenance to preserve and extend building performance.

OUR ADVANTAGES

Abdul Contracting Company delivers complete turnkey EPC solutions under single-point management, streamlining engineering, procurement, and site execution. Fully aligned with Saudi Vision 2030, we integrate high-efficiency solar and MEP systems built to local standards. With guaranteed Civil Defense compliance, strict quality control, and proven leadership, we reliably deliver high-performance infrastructure.

- **High-Quality Standards**
- **Advanced Technology**
- **Safety First Approach**
- **Reliable Execution**

BUILDING FOR SOCIETY

Abdul Contracting Company builds resilient infrastructure across Saudi Arabia by integrating robust construction with advanced electromechanical systems to elevate community living standards.

Residental Building

We execute comprehensive structural and civil works for residential projects, delivering durable buildings with fully integrated HVAC and electrical systems designed for long-term comfort.

Apartment

Our turnkey services for apartment complexes ensure seamless climate control, robust power distribution, and safe, efficient ducting networks for high-quality urban living.

Housing & Home

We provide tailored construction and mechanical solutions for private homes, ensuring reliable plumbing, power, and cooling systems that create safe, comfortable, and modern living environments.
